What we will try to do today is compare quantities in ratio format, which usually looks like 2:1, 1:3, 10:1, etc. The interesting thing about ratios is that no matter how many birds, cows, shoelaces, etc. you have, the ratio - the relationship - is always the same. Review the picture of the bird.

Second: Once students have these skills reinforced, we will then ask them to write ratios in three ways and in simplest terms. Third: We will ask students to compare part to whole and then explain in everyday language what terms like 1 out of 5 mean. Aligned with Common Core Standard: 6.RP.1
